Experimental Artspace

for expanded forms of production and presentation

## Kabuff Residency Application 2019/20

KABUFF

in the Bildhauerhalle,  
E-WERK Freiburg e.V.

Eschholzstr.77  
79106 Freiburg

The KABUFF is an experimental art space in Freiburg which aims to promote artistic exchange; offering a platform to young artists for their innovative projects.

At least 3 times a year the KABUFF gives out a between one and three month residency. During this time a studio and presentation space is provided in the historic sculptors hall of the E-WERK in Freiburg.

The stay affords the participants with the chance to exchange ideas with other artists in Freiburg, to work in a new environment, and to present their own work.

The Residency is always between March and October and is given out without age or degree requirements. All artistic areas are welcome. Accommodations will be provided for the duration of the stay and as well as a fixed budget for materials. The E-WERK Freiburg is a former electricity plant that today functions as an interdisciplinary cultural center with its own exhibition space. Because of this applications across all forms of media or video- and audioprojects are very welcome. There is light, audio, and video technology available for use.

Applications must include a Portfolio with a CV, that gives an overview of previous artistic work. And the planned project should be presented in a short description with visualization. Also please include the desired Residency time frame.
